THANK YOU FOR YOUR CUSTOM.

Every effort has been made to ensure a good fit, however please bear in mind that with all saddles, flocking will settle and horses do change shape.

The time of year, age of the animal, the work being done and even a change in rider or home may considerably alter the way that the saddle fits. We suggest that it is good management to monitor this and to check for any signs of discomfort to your horse.

We are pleased to continue to care and maintain your saddle which should be regularly checked for fit and balance, it is your responsibility to arrange this. If you have any worries about the fit, we are always willing to discuss them with you.
